DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Species 29 in Paper No. 13 is acknowledged. However, claims 15-16 and 18 are withdrawn from further consideration because they are not claiming photosensitive polyimide.

Claim Objections

- 2. Claims 23 and 25 are objected to as being a substantial duplicate of claim 24. Claims 23-25 are essentially duplicates of one another or else are so close in content that they both cover the same thing, despite a slight difference in wording. It is improper to have three claims which contain the same limitations, in the same application as one claim would be a substantial duplicate of the other claims.
- 3. Claim 17 is objected to because of the following informalities: "polyamide" is misspelled and it should be correctly spelled as –polyimide--. Appropriate correction is required.

Claim Rejections - 35 USC § 103

- 4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 5. Claims 2, 17, 19-22 and 26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ohsawa et al (US 6,020,626) in view of Ishida (US 5,686,702).

Page 2

Ohsawa discloses in Figs. 7A-7E and 8A-8D substantially all the claimed limitations. Re claims 26-27, Fig. 8B shows elements 11a-11b are etch stopper because they are not removed during etching process.

Ohsawa fails to disclose photosensitive polyamide.

Ishida disclose that 23 is photosensitive polyamide.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify Ohsawa by providing photosensitive polyamide, as taught by Ishida, for the purpose of etching the insulating layer without requiring harsh chemicals or mechanical means.

Allowable Subject Matter

6. Claims 23-25 and 27 are objected to as being dependent upon a rejected base claim, but would be allowable if claims 23 and 25 are cancelled or amended to overcome the objection as noted above, and claim 24 is rewritten in independent form including all of the limitations of the base claim and any intervening claims.

NOTE: non-elected claims will be rejoined if the application becomes allowed.

Response to Arguments

7. Applicant's arguments with respect to claims as stated in the Remarks section have been considered but are most in view of the new ground(s) of rejection.

Conclusion

8. Please provide reference numerals (either in parentheses next to the claimed limitation or in a table format with one column listing the claimed limitation and another column listing corresponding reference numerals in the remark section of the response to the Office Action) to all the claimed limitations as well as support in the disclosure for

better clarity. Applicants are duly reminded that a full and proper response to this Office Action that includes any amendment to the claims and specification of the application as originally filed requires that the applicant point out the support for any amendment made

to the disclosure, including the claims. See 37 CFR 1.111 and MPEP 2163.06.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rick K. Chang whose telephone number is (703) 308-4784. The examiner can normally be reached on 5:30 AM to 1:30 PM, Monday through Thursday.

The fax phone numbers for the organization where this application or proceeding is assigned are (703) 872-9302 for regular communications and (703) 872-9303 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-1148.
